

## Orbit Bearings was awarded by Ashok Leyland in their Supplier Summit 2012

Orbit Bearings received an award for its “Outstanding Support” by Ashok Leyland in their Supplier Summit 2012. This award further strengthens the long lasting relationship between the two companies which was established in 2004.

Our engineers work with our OEM customers to define application problems and provide solutions that help end users get the most out of their products. Orbit Technology Centre is investing in Design development, Testing facilities and Friction Management. This has helped in developing its Road Simulation Endurance test system and in having the shortest lead time for developing customized bearings

Mr. Vinesh Patel MD-Orbit Bearings receiving the award from Mr. Vinod K. Dasari, MD - Ashok Leyland and Mr. Anuj Kathuria, ED Sourcing & Supply Chain

Orbit is exhibiting at Automechanika in Frankfurt from 11<sup>th</sup> to 16<sup>th</sup> September 2012 and at IAA in Hannover from 20<sup>th</sup> to 27<sup>th</sup> September 2012
